Ms. Jennifer Thompson
Director of Study Abroad
American Intercontinental University
3159 W. Higgins Rd. Suite 150
Hoffman Estates, IL 60169

Dear Ms. Thompson:

This is a letter of commendation for your remarkable services as an institution.

My daughter, Michaelene, is currently enrolled in a one-year Fashion Design program in London. Your services, from my first phone inquiry about your programs until my daughter left, have been outstanding. Michaelene's admission advisor, Nicole Peitz, has gone above and beyond her duties to answer our every question and to address our every need. Nicole held our hands when the process became challenging, she encouraged us when we wanted to give up. As a whole, your staff both in London and in the United States, have been outstanding, cordial, trustworthy and extremely helpful. They responded to our questions on curriculum, fees, flights, visa, banking, rides from the airport, housing, etc. promptly and amiably.

Michaelene is impressed by your fashion program in London. Most of her teachers are actually in the trade. They bring to class practical knowledge of the profession. They impart skills that the students will need in their job search. In her internship program with Michael Azu, Michaelene is gaining first hand experiences in being a fashion designer.

AIU has made Michaelene's study abroad program meaningful. I am certain that she will always treasure her experiences with AIU in London. As a Mom, I am grateful for the confidence that AIU gave me. This confidence provided me and my husband the courage to allow our youngest daughter to follow her dreams.

I am honored to recommend American Intercontinental University to students who wish to study abroad and to parents who seek quality education for their children.

Sincerely,

Mrs. Vee Novak
Gladwin, MI
